

MAKING CHANGE HAPPEN

NEED YOUR LEADERS TO WORK BETTER TOGETHER?

TRY THE PERSONAL IMPACT DAY

Help leaders understand the effects they have on others.

What happens?

- We help leaders and teams see how their chemistry affects the way they operate as a team, and the impact this has on their people's psychological safety. They also learn the group dynamics they create, and how they can build trust and psychological safety into their teams.
- We use practical exercises taken from the film industry to observe how attendees communicate. We combine these with honest and helpful feedback.
- Topics we cover include 'Leadership Power', 'Centring and Breathing', 'Physical Stress', 'Space and Eye Contact', 'Vocal Impact', 'Posture' and 'The Reflected Self'.

What do delegates leave with?

- A better understanding of how they communicate with other people.
- Practical skills and tools they can use with their teams.
